

# Joint ventures: the benefits for new entrants and land owners

**3rd January 2019 at St Aldates Church, Oxford Real Farming Conference, 11.30 am - 12.30 pm**

Are you a new entrant looking for land/business opportunities? Or are you a land owner/land agent who may be considering bringing in a new person/business to diversify, make better use of the farm assets or considering a phased retirement? Interested in what a joint venture could offer you?

If you are attending the Oxford Real Farming Conference 2019, come along to our session all about Joint Ventures. We are bringing together experts from England, Scotland and Wales along with farmers experienced working in joint ventures to share their practical and legal advice.

It's the ideal opportunity to come and see how joint ventures work in practice and ask the panel your related questions. Learn about Land Matching Services within the UK and their work with joint ventures and the wider NEWBIE project helping new entrants across Europe. Find our session at [www.orfc.org.uk](http://www.orfc.org.uk) or contact [adam.calo@hutton.ac.uk](mailto:adam.calo@hutton.ac.uk). This session is supported by the European Commission-funded NEWBIE Network <http://www.newbie-academy.eu>.
